

Tuning in DAD

By Benjamin Esh, 2011

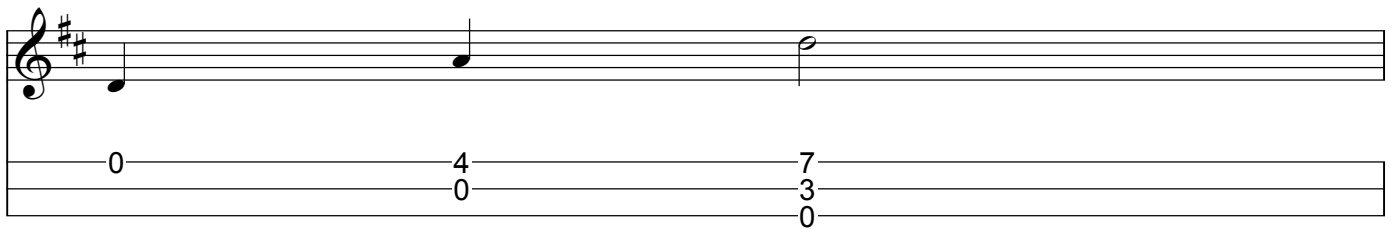

Come Thou Fount of every blessing, Tune my heart to sing Thy grace; (Come Thou Fount)

Open String Notes

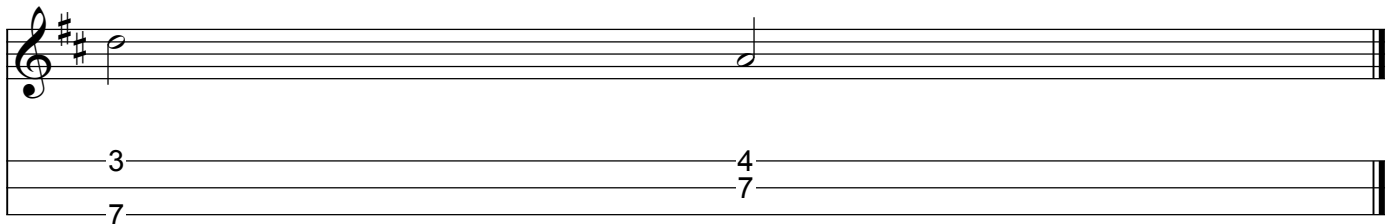

Using a tuner, eletronically tune each note individually.

Matching Notes to tune

1. If a tuner isn't available or if you only have a D tuning fork, find an appropriate low D.
2. Tune your A string by using a note from your low D string.
An open A should be identical to a low D string's 4th fret.
3. Tune the high D strings by using a notes from either your low D string or A.

Matching Harmonics to tune

Using harmonics to tune is more precise and accurate than using regular notes .

1. First, If a tuner isn't available or if you only have a D tuning fork, find an appropriate low D.
2. Tune your A string by using a harmonic from your low D string.
A harmonic on the D's 4th fret should match the A string's 7th fret harmonssic.
3. Tune your high D strings by using a harmonic from your low D string.
A harmonic on the D's 3rd fret should match a D string's 7th fret harmonic.
